District Collector, Keonjhar

**Sub: Regarding study on food deprivation: impact and response**

Dear Madam,

The Commissioner office has commissioned a follow up study to understand food deprivation and its impact and response in six states of India including Orissa. As part of the study we have selected Keonjhar district in general and Kuladera village in particular. The village has been selected as there were reported cases of acute food deprivation and death of wife and child of Manglu Juang.

In this regard we are visiting the said village on 24<sup>th</sup> November 2009. This is for your kind information and necessary action.

Thanking you.

Yours sincerely,
